TOTAL LIFE CARE  
**KWANGDONG  
HOSPITAL**

#### What is a "Valuable" Health Checkup?

A health checkup isn't just a routine test—it's a major decision.

Kwangdong Hospital introduces the "More Valuable" campaign to offer trustworthy, meaningful health evaluations based on careful review and discussion.

#### "More Advanced"

Our health checkup programs are developed based on the latest medical evidence by our dedicated 'Program Development Board'. We ensure clinical relevance, connectivity, and complementarity between tests.

#### "More Personalized"

Beyond standardized testing, we offer individualized tests and interpretations that reflect each patient's health status and risk factors, ensuring early detection and prevention.

#### "More Reliable"

Health checkups should not be one-time evaluations. They must support long-term health management, disease prevention, and timely treatment recommendations.

#### "More Competitive"

We balance clinical efficacy and cost-effectiveness, providing practical and accessible healthcare checkup options.

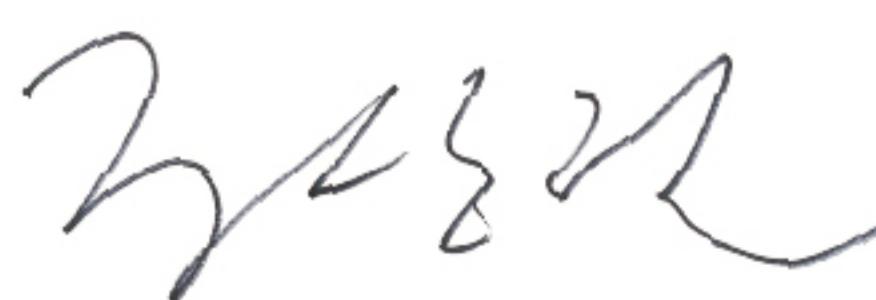

#### "More Hearted"

Advanced equipment alone is not enough. True patient-centered care includes thoughtful hospitality and a comfortable exam experience.

From accurate diagnosis and meaningful interpretation of test results to a warm, patient-centered medical experience -

Kwangdong Hospital's medical team is committed to leading the future of personalized health checkups through continuous research and dedicated care.

Sang Heon CHO,  
Director of Kwangdong Hospital

## Kwangdong Hospital's 4 Key Proposals or Future Health Screenings

We offer a new level of health screening experience that combines university hospital-level medical expertise with premium service with a reasonable cost.

### *"We have the Solution!"*

| 01

The reputation of our esteemed medical professionals shines in every clinical encounter.

| 02

Beyond basic screening - we offer real solutions for your health.

02-1. From diagnosis to prevention, and ultimately treatment.

02-2. An integrated care system through interdisciplinary collaboration.

02-3. Seamless referral partnerships with leading university hospitals.

| 03

Thoughtful hospitality and optimized spaces ensure comfort beyond expectations.

| 04

Precision and healing combined—defining the new standard of next-generation health checkups.

## 01 The reputation of our esteemed medical professionals shines in every clinical encounter.

## 02 Beyond basic screening - we offer real solutions for your health.

### | 01 From Diagnosis to Treatment

Through comprehensive screenings that include genetic and functional medicine - testing programs, we provide Total Life Care that encompasses the full spectrum of your health journey.

### | 02 An integrated care system through interdisciplinary collaboration.

Findings identified during the health checkup are managed through a collaborative care system involving specialists in internal medicine, neurology, functional medicine, and Korean traditional medicine.

### | 03 Seamless referral partnerships with leading university hospitals.

In cases requiring surgery or advanced treatment, we coordinate with major university hospitals, and continued long-term care can be provided at Kwangdong Hospital following the treatment.

### 03 Thoughtful hospitality and optimized spaces ensure comfort beyond expectations..

Dedicated concierge services from booking to examination.

Our concierge team will assist you throughout your check-up day.

Personalized paths for safe, convenient exams accompanied.

Smooth connection from test results to follow-up care.

### 04 Precision and healing combined - defining the new standard of next-generation health checkups.

#### | Precision Meets Healing : Setting the New Standard

Through our Premium check-up program, we offer examination quality that exceeds university hospital standards, while ensuring affordability and accessibility.

#### | Platinum overnight checkup with precise examination and rest

A program where you can experience comfortable examination preparation and healing together while enjoying a leisurely time in the city, away from your busy life.

· KD Premium Gold Program + Advanced Functional Medicine + VIP Suite Stay

#### | Precision Diagnostic Modules for Foundational Health

We offer modularized precision diagnostics tailored to individual health conditions, enabling the realization of true Total Life Care.

Sudden Cardiac Death Prevention | Dementia & Degenerative Brain Function Evaluation | Neurovascular & Brain Tumor Diagnostics | Comprehensive Gastrointestinal Screening | Advanced Cardiac Assessment | Allergy & Respiratory Precision Testing | Male · Female Endocrine Function Evaluation | Functional Medicine Profile | Genetic Risk Screening for Diseases

## KD Health Check-up Programs

At Kwangdong Hospital, we offer both Standard Programs(essential screening) and Premium Programs(comprehensive diagnostic screening) designed to assess overall health and detect specific conditions at an early stage.

### Standard Program

(Unit:USD)

Program	Contents	Price		Major Components
		M	F	
KD Standard Ivory	Core tests for overall health assessment and early disease detection	400	450	· <b>Common</b> : Endoscopy, Upper abdominal ultrasound, Oral exam, Physical measurements, Blood pressure, Eye exam, Hearing test, Chest X-ray, ECG, Comprehensive blood test (liver/kidney function, 4 tumor markers etc.), Urinalysis, and Physician consultation
				· <b>Male</b> : Prostate cancer tumor marker (PSA)
				· <b>Female</b> : Mammography, Ovarian cancer - marker, Pap smear (cervical cytology)
KD Standard Olive	Adds endocrine and immune function - screening to 'KD Standard Ivory'	600	650	· <b>Common</b> : 'KD Standard Ivory' + Thyroid ultrasound, NK cell activity, Vitamin D level
				· <b>Male</b> : Low-dose lung CT
				· <b>Female</b> : Breast ultrasound
KD Standard Skyblue	Adds colonoscopy and advanced gender - specific ultrasound to 'KD Standard Skyblue'	800	850	· <b>Common</b> : 'KD Standard Olive' + Colonoscopy
				· <b>Male</b> : Prostate ultrasound
				· <b>Female</b> : Pelvic ultrasound

### Premium Program

(Unit:USD)

Program	Contents	Price		Major Components
		M	F	
KD Premium Orange	Core exams + Early cancer detection	1000	1100	· <b>Common</b> : Low-dose chest CT, pancreatic MRI, Sedated upper & lower endoscopy, abdominal ultrasound, thyroid ultrasound, NK cell activity, advanced blood & urine tests, HRV (autonomic/stress), ANRISK (cerebral aneurysm risk)
				· <b>Male</b> : Prostate ultrasound, male tumor - markers
				· <b>Female</b> : Mammogram/ultrasound, Pelvic ultrasound, Female tumor markers, Advanced Pap smear, bone density
KD Premium Green	Adds detailed cardiac structure & function to 'KD Premium Orange'	1500	1600	· 'KD Premium Orange' + Echocardiography, Coronary artery calcium score CT, Cardiac-specific blood tests (hs-CRP, CK-MB, Troponin I, NT-proBNP), Cardiovascular disease risk assessment
				· 'KD Premium Green' + Brain MRI + MRA , Amyloid beta, Neurofit AQUA (digital brain analysis)
KD Premium Gold	Adds brain function & Cerebrovascular screening to 'KD Premium Green'	2200	2300	· 'KD Premium Gold' + Organic acid test (urine), Gut microbiome profiling, Amino acid profiling, Heavy metal and mineral blood panel, Biological aging (telomere)
				· Choose any 2 from ① to ④ ① Nutritional IV ② Functional IV ③ Korean traditional health acupuncture ④ Manual therapy · VIP suite · Dedicated concierge service
KD Premium Platinum	Adds functional - medicine, VIP accommodations to 'KD Premium Gold'	3800	3900	

## Optional Precision Modules

Customizable precision diagnostic modules tailored to major diseases, which can be added to either the Standard or Premium checkup programs.

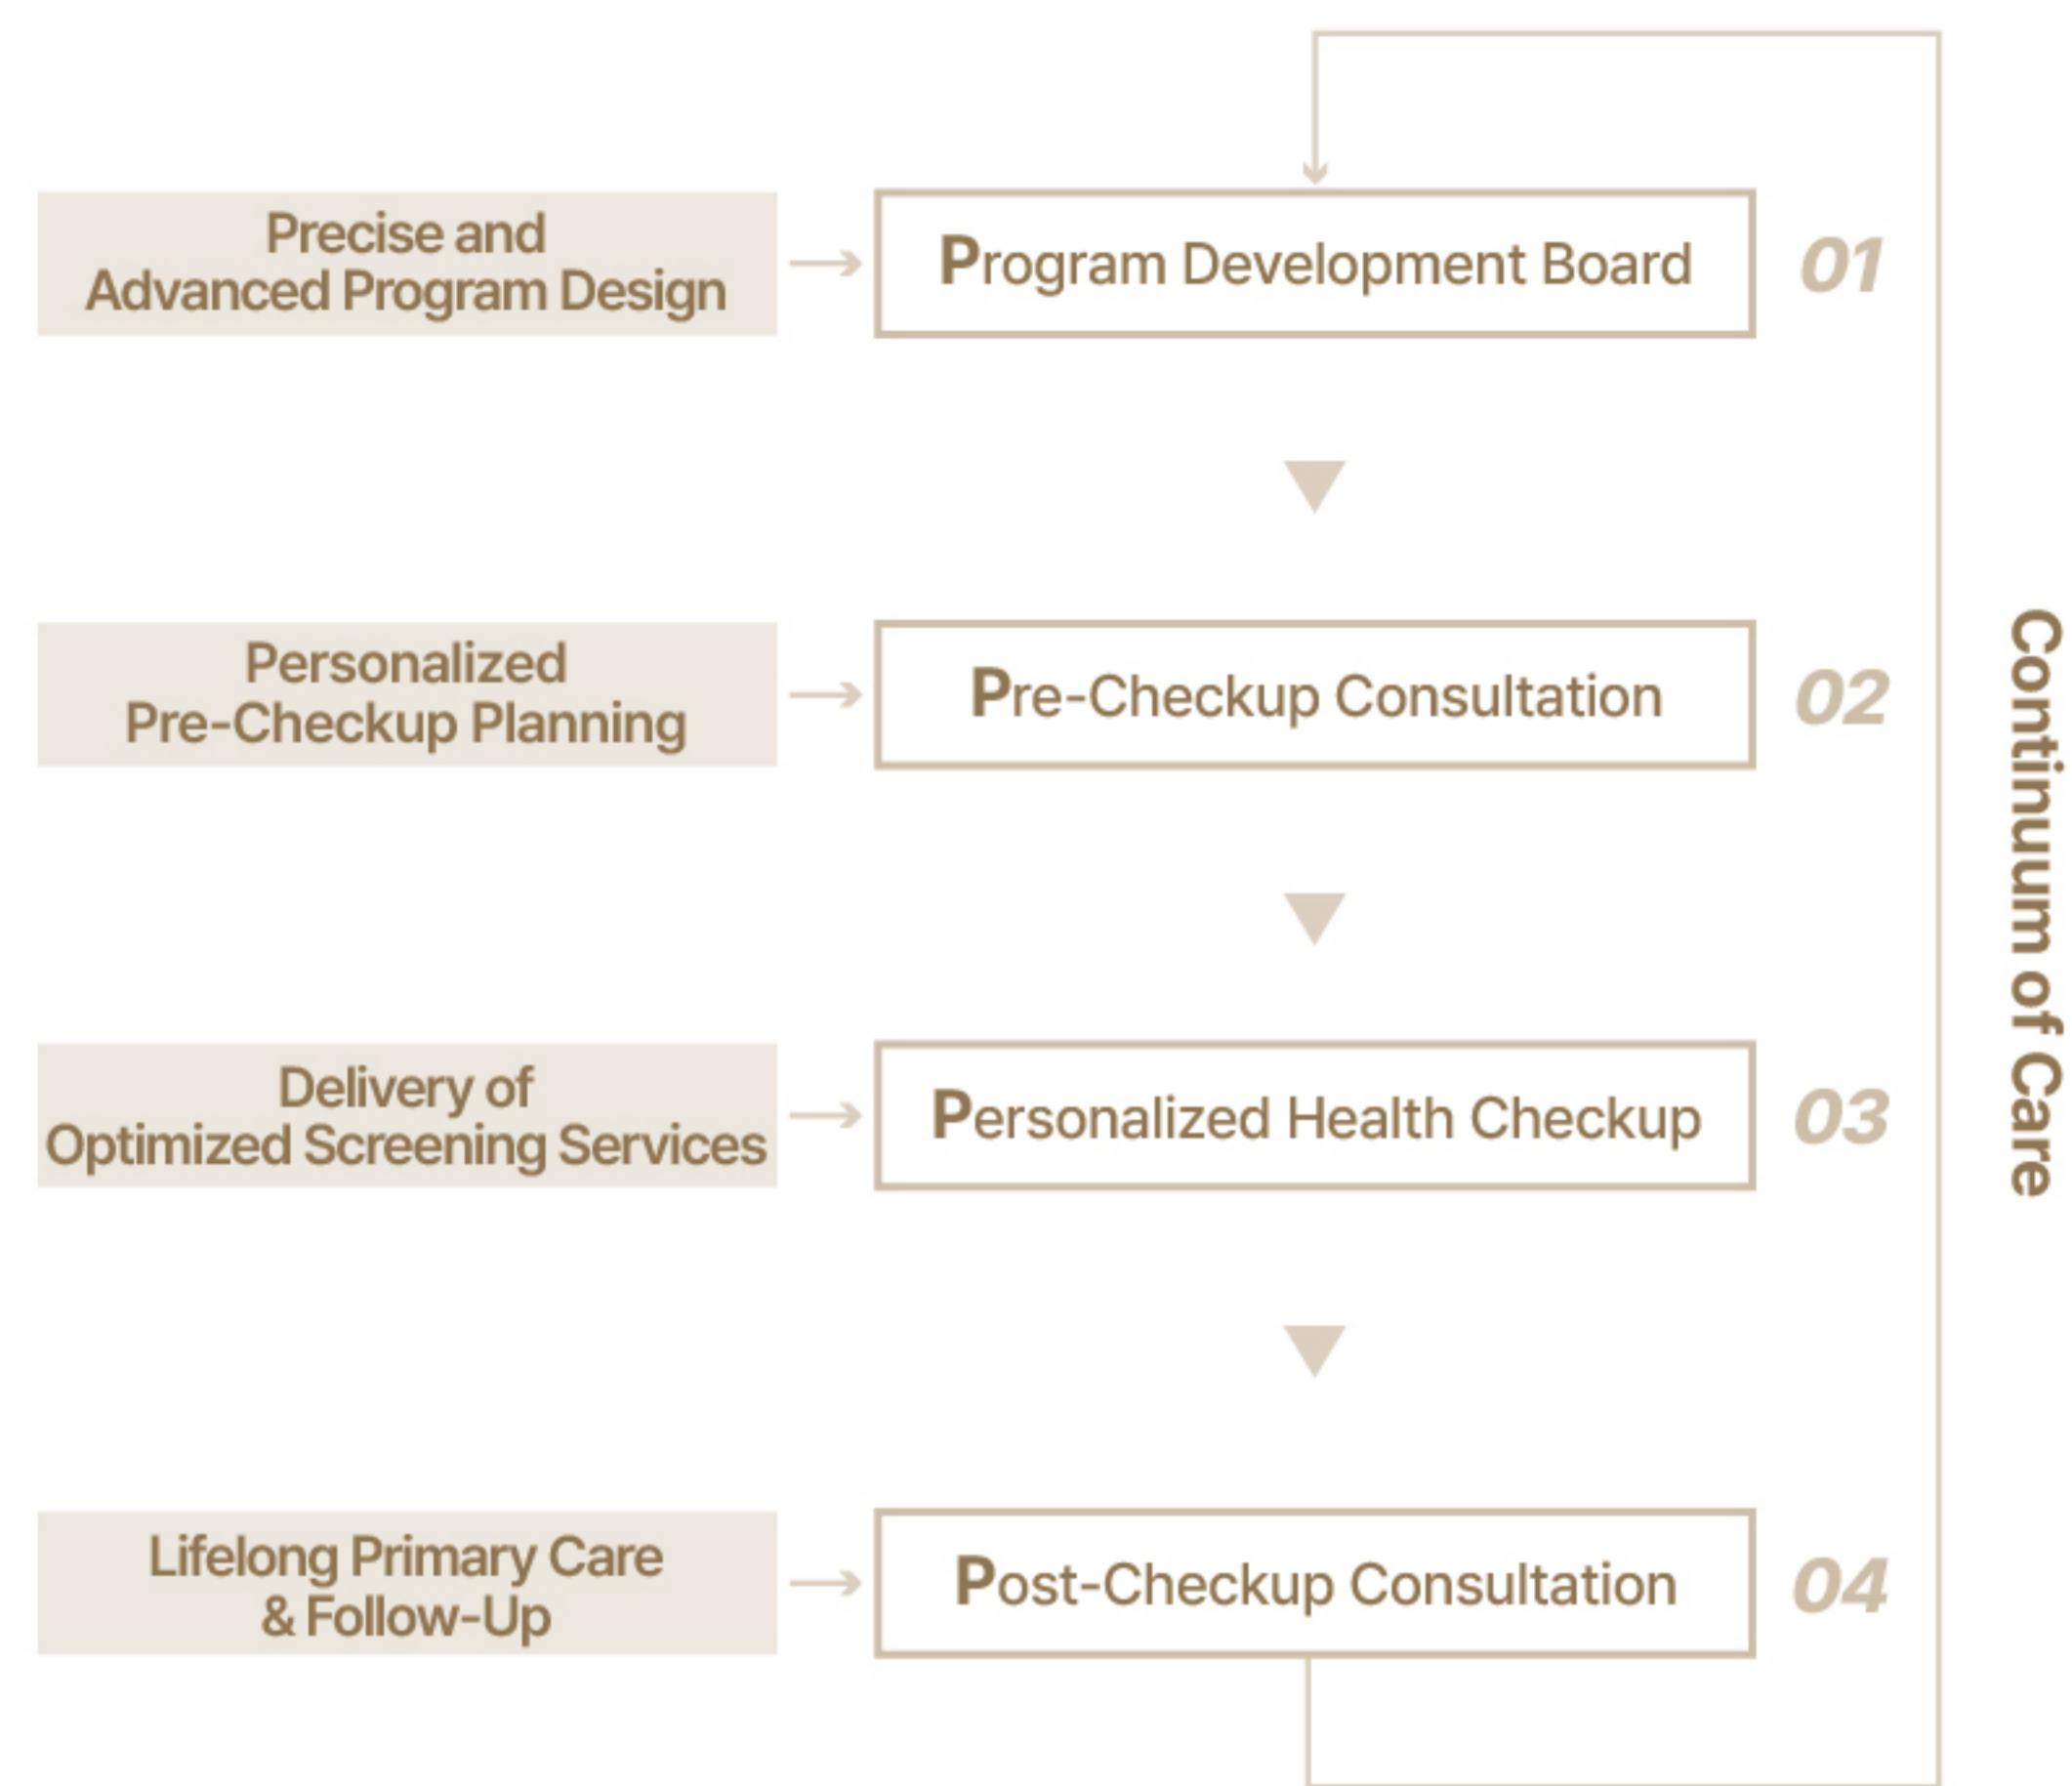

( Unit: USD )

Program	Contents	Price	Major Components
Sudden Cardiac Death Prevention	High-risk Cardiovascular condition screening	1200	Sudden cardiac death gene test, 72-hour Holter ECG, Coronary CT angiography, Abdominal CT, Echocardiography, ANRISK (aneurysm risk prediction)
Cognitive Decline & Dementia Panel	Neurodegenerative disorder risk	600	Brain MRI (structure), Neurofit AQUA, Dementia-related gene testing, Amyloid beta
Neurovascular & Brain Tumor Screening	Brain tumors & Cerebrovascular conditions	800	Brain MRA & MRI, Cerebral blood flow Doppler, Carotid Doppler, Echocardiography, Arterial stiffness, Homocysteine, Neurofit AQUA
Cardiac Precision Module	Cardiac structure, function, and Vascular health	600	Carotid Doppler, Echocardiography, Coronary, Calcium CT, Arterial stiffness Cardiac blood markers (hs-CRP, CK-MB, Troponin I, NT-proBNP, CRF, Homocysteine, Serum Magnesium), Cardiovascular risk analysis
Gastrointestinal Precision Module	Stomach, Colon, Pancreas	800	Pancreatic MRI, Sedated upper & lower endoscopy, Gut microbiome analysis, H. pylori antibody
Allergy & Respiratory Module	Pulmonary function and Allergy screening	300	Low-dose chest CT, Sinus MDCT, Spirometry, Fractional exhaled nitric oxide (FeNO), MAST allergy panel (108 allergens)

(Unit: USD)

Program	Contents	Price	Major Components
Male Hormonal Balance	Comprehensive Evaluation of Male Endocrine System	600	Pituitary MRI, Pituitary ultrasound, Thyroid ultrasound, Abdominal fat CT, NK cell activity test, Aging biomarkers (oxidative stress/anti-aging), Testosterone, Vitamin D, Exbody (body composition), HRV (autonomic nervous system, stress)
Female Hormonal Balance	Comprehensive Evaluation of Female Endocrine System	600	Mammography, Breast ultrasound, Thyroid ultrasound, Pelvic ultrasound, Pelvic organ screening, Abdominal fat CT, Bone density, NK cell activity test, Aging biomarkers, Female hormone test, AMH (ovarian reserve), Vitamin D, Exbody (body composition), HRV (autonomic nervous system, stress)
Functional Medicine Panel	Functional assessment of metabolism, gut, nutrition	1200	Urinary organic acids, Gut microbiome (gut Inside), IgG4 food allergy, Amino acid analysis, Blood heavy metals, Minerals, Telomere test (biological age)
Disease Genetic Panel	Genetic screening for cancer, dementia, chronic disease	300	Cancer gene panel (6 male   7 female types), Genetic markers for chronic disease and dementia
Premium Overnight Healing	One-day medical wellness & Healing experience	Each Program +600	<ul style="list-style-type: none"> <li>Private room stay with bowel - preparation conducted in-room</li> <li>Choose any 2 from ① to ④ <ul style="list-style-type: none"> <li>① Nutritional IV</li> <li>② Functional IV</li> <li>③ Korean traditional health acupuncture</li> <li>④ Manual therapy</li> </ul> </li> <li>Dedicated concierge service</li> </ul>

## Kwangdong Global Checkup Center's 4P Process

### 01

Our health screening programs are meticulously designed by top-tier physicians, including experts who led the planning and operation of Seoul National University Hospital's Gangnam Center.

### 02

We tailor each program to meet individual needs in the most optimized setting ensuring both clinical excellence and a warm, caring experience.

### 03

We provide modular, individualized programs designed to reflect your unique health status and risk factors.

### 04

Based on your screening results, we offer seamless integration with Kwangdong Hospital's specialists, collaborate with university hospitals if advanced care is needed, and provide lifelong primary care support.

Beyond simple check-ups,  
we strive to become your lifelong partner  
in health management.
